

**Aberffraw Community Council
Statement– Aberffraw Village Hall**

**Further Statement of the Aberffraw Community Council on the
management of the Aberffraw Village Hall.**

The move to take back control of the Village Hall from the former Village Hall Management Committee was to safeguard the future of the Village Hall for the entire community.

The former VHMC changed the details of the Trustees of the Village Hall without the knowledge of the Community Council – the Trustees since 1965. When this was discovered by the Community Council they sought and followed legal advice, and dissolved the former VHMC in order to bring back control of the Village Hall to the Community Council on behalf of the entire community.

If this had not been done, the Village Hall would have been in the hands of an unelected group of people not answerable to the electorate.

The Community Council awaits the outcome of legal proceedings, as the former VHMC has failed to comply to date with the instructions of the Community Council's bi-lingual (Welsh/English) specialist legal team to hand over all records, audits, accounts and financial details as required by the Audit Commission.

The Community Council looks forward to the future of the Village Hall and it being available for the use of the entire community.
